ISLAND STONE® SPINDRIFT MARBLE TILES COMBINE CHIC CARRARA MARBLE WITH ORGANIC FORMS

With a pebble-like shape, Carrara Stone mosaics offer a playful take on popular marble

(Watsonville, CA, January 22, 2019)
The lavish, classic look of Italian Carrara marble is one of the hottest trends in kitchen and bath design. Now, **Island Stone®** is putting a playful spin on the iconic material with its **Spindrift Marble** interlocking tiles. Made with Carrara stone,

Spindrift Marble tiles capture the chic aesthetic of marble slabs in a playful, organic shape reminiscent of pebbles.

With versatile features like a clean grout line, uniform edges, and a smooth flat surface, Spindrift Marble

Spindrift's natural, curved shape reminiscent of pebbles

is both elegant and practical. The sculptural white and gray marble is stunning in both classic and modern environments.

“Homeowners are clamoring for the look and feel of trendy Carrara marble, but not every kitchen and bath style is suited to the contemporary influence of a solid slab. Spindrift Marble captures the sophisticated essence of the classic material in a natural shape whose curves add a playful, eye-catching aesthetic,” says Jeff Nibler, COO and president of sales for Island Stone.

Each Carrara stone is meticulously shaped and crafted into mosaic tiles measuring 11¾” square by ¼” thick. Spindrift Marble tiles are suitable for walls, residential and high-traffic floors, showers, and freeze/thaw areas.

ABOUT ISLAND STONE

Island Stone took root in Indonesia, where company founders were inspired by the nation’s handicraft industry and natural stones to create the flagship **Perfect Pebble Tile**. The company’s original mosaics diversified into various other natural mosaics utilizing exotic stones. Today the company’s design continues to evolve, sourcing from distinct locales around the globe and featuring a range of natural stone mosaics, glass tiles and mosaics, as well as quarried stone tiles, mosaics, and wall claddings. Through its **Island Timber** division, the company crafts wall cladding from salvaged woods from historic buildings in Indonesia. For more information, visit www.islandstone.com or call 1-800-371-0001.
