create a
relaxing vibe

DUNES SERIES TILES DELIVER ELEGANT INTERPRETATION OF SERENE, WIND-SWEPT COASTLINES

Island Stone adds two new colors to its line of sculptural, sophisticated subway tiles

(Watsonville, CA, April 17, 2019) Whether they're on the coast or deep in the heartlands, homeowners can channel the relaxing vibe of sandy beaches with **Dunes** series tiles from Island Stone. The elegantly drawn out subway tiles are sculpted with an offset angled surface, forming a flow of connected ridges reminiscent of wind-swept sand dunes. The tapering trapezoid relief dances across the wall surface, creating intriguing shadows while

remaining contemporary and clean for long-lasting appeal.

The addition of two new colors—**Crystal White** and **Typhoon Grey**—rounds out the line's range, which also includes **Sandstone Mint** and **Sandstone Ocean**. Each color's incandescent surface softens its geometric, sculptural design, creating a marble-like finish.

"Every homeowner can appreciate the serenity of a quiet day at the beach. Dunes captures that essence, emulating the subtle movement of the sand and dunes dancing gently in the breeze," says Jeff Nibler, COO and president of sales for Island Stone. "The elegant interpretation is transcendent and sophisticated at the same time."

Dunes quarried stone's wavy relief patterned tile comes meshed in a straight stack successively placed to create an exclusive finished surface. Each tile measures 7-1/2" by 11-3/4" and from 1/4" to 5/8" thick. While the tumbled natural stone designs are ideally installed with grout, they can also be installed dry stacked.

ABOUT ISLAND STONE

Island Stone took root in Indonesia, where company founders were inspired by the nation's handicraft industry and natural stones to create the flagship **Perfect Pebble Tile**. The company's original mosaics diversified into various other natural mosaics utilizing exotic stones. Today the company's design continues to evolve, sourcing from distinct locales around the globe and featuring a range of natural stone mosaics, glass tiles and mosaics, as well as quarried stone tiles, mosaics, and wall claddings. Through its **Island Timber** division, the company crafts wall cladding from salvaged woods from historic buildings in Indonesia. For more information, visit **IslandStone.com** or call 1-800-371-0001.
