Island Stone Adds Three New Colors to Palms Glass Tile Collection

Soothing and sophisticated, the wedged-shaped tiles emulate the movement of tropical fronds

(WATSONVILLE, CA, DECEMBER 8, 2021) As its name suggests, Island Stone's Palms tiles mirror the intricacy of palm leaves, with a fluid wedge shape that merges organic and geometric elements into a mesmerizing design. The pattern created by the tiles' alternating placement, with narrow ends adjacent wider ends, creates a visual undulating effect, reminiscent of tropical fronds gently swaying in the breeze.

Island Stone has added three new colors to the collection: **Glacier Gloss**, a grayscale-like hue whose range from light to dark gray adds further movement to the tiles; **Lagoon Matte**, a modern, sophisticated emerald tone; and **Midnight Matte**, a deep, rich Navy blue.

“Palms delivers the peaceful calm of a coastal vibe, but with a sleek, modern sensibility that elevates the space into something truly elegant,” said Nigel Eaton, CEO of Island Stone. “Combine the tiles with a palette of soothing, muted hues for visual effect to create the ultimate sophisticated escape.”

The tiles are available in 15 other matte and gloss colors highlighting mellow versions of traditional tropical hues, ranging from seafoam-like **Azure Matte** and **Spring Matte** to soft blue **Oceania Matte** to the grays and tans of **Tule Matte** and **Smoke Gloss**.

The Palms tiles can be used for a range of kitchen, bath, and exterior applications, including backsplashes, countertops, fireplace walls and floors, shower walls and floors, and exterior walls.

about island stone

Island Stone has its origins in Indonesia, where company founders were inspired by the nation’s handicraft industry and natural stones to create the flagship **Perfect Pebble Tile**. The company’s original mosaics diversified into other natural mosaics, using exotic stones. Anchored in wanderlust for exploration, culture, and design, the company continues to evolve its creative use of natural and timeless materials, sourcing from distinct locales around the globe and featuring a range of natural **stone** tiles and mosaics, **glass** tiles and mosaics, as well as natural **stone** wall tiles and **timber** wall panels and cladding.
